**[Instructions:** The extended abstract content should not be more than 1000 words (excluding references and figures/tables). This extended abstract should clarify the research question, the research performed and methods applied, results and findings, as well as the inferences and conclusions of the authors. The text can be supplemented by up to two figures or two tables (or one figure and one table) with separate captions. These figures/tables and their captions do not count towards the word limit. The structure of the extended abstract should include the following section: synopsis, background, methods, results, discussion, disclosures (if any), and references.]

**Synopsis** [i.e., a short abstract of the work, maximum 1000 characters. This synopsis should be the same as the abstract written on CMT during the submission]
